DELFIPOOLSICINAS

Features

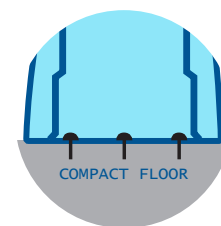

Easy installation

ARE SUPPLIED
IN TWO PIECES:
TRACK &
STAIRS

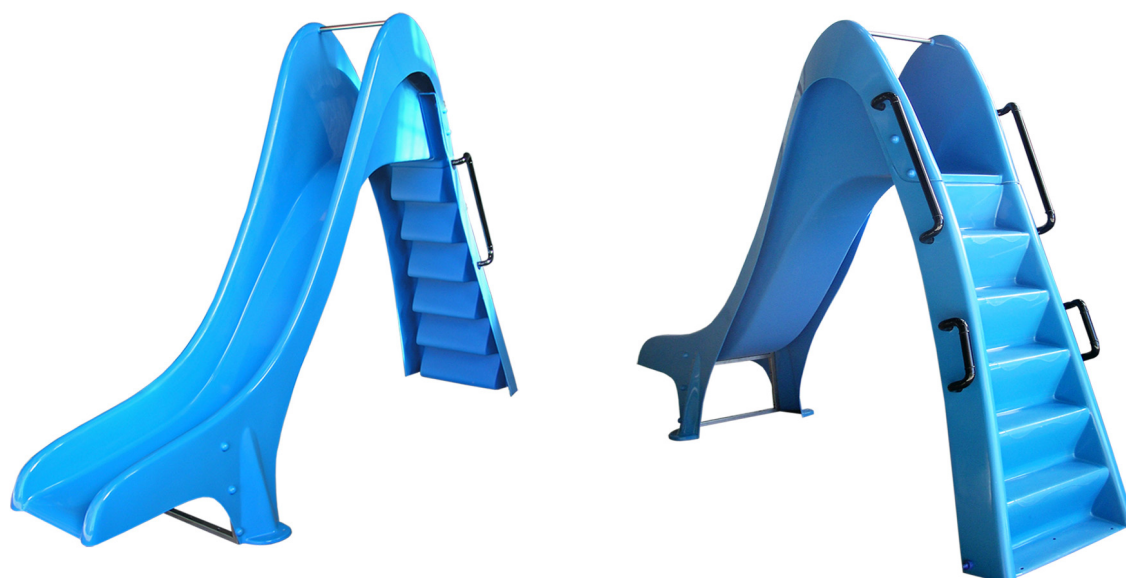

INSTALLATION
IN COMPACT
FLOOR

* The slide must
be fixed both
in the area of
the front foot
and in the area
of the rear
staircase.

Minimum depth of
foundations
40 cm.

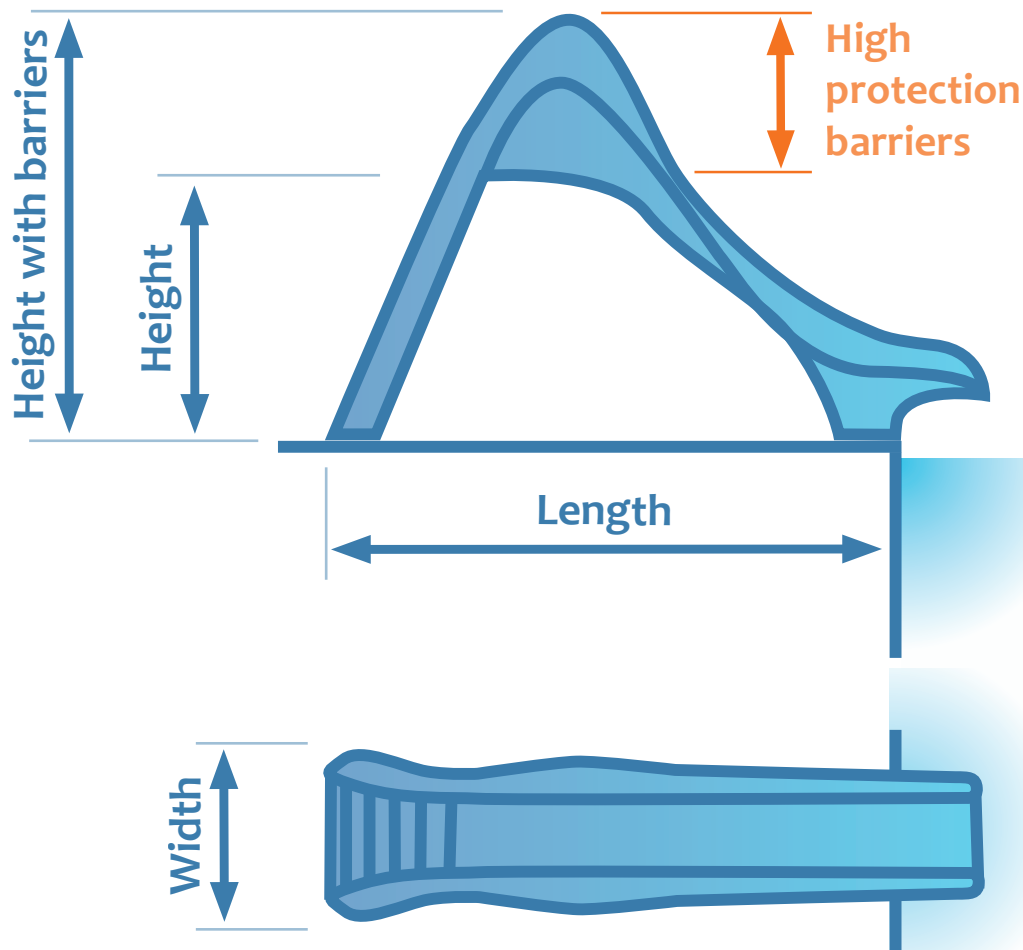

All our DelfiPools models are resistant to water and solar radiation.

They have a safety bar, aluminum handles, high protection barriers and non-slip steps to prevent falls.

Water flows out of the seat bar to keep the track wet.

The screws are protected with vandal-proof caps.
